With easy-to-read clarity and compelling wisdom, Gary Richardson (my friend and attorney) persuades us to render the verdict that fear is not only our enemy, but one whose power has been stripped by God. This book will change the way you think in everyday struggles of life. You might even discover peace.

Gary Richardson is fearless. He is unafraid to scale an ice cliff if it's an obstacle to the cause he earnestly supports. But it was not always so. He wasn't born that way. It didn't happen by accident. Hard struggle, hard work and hard lessons steeled Gary to achieve enormous personal and professional success. His dedication to personal achievement and his unabashed spirituality enabled him to climb to the pinnacle of business and law. He overcame a blizzard of fears but knows that conquering fear is a lifetime challenge. Fear is always there. Insidious, like a virus, it constantly seeks to bring us down. *Fear Is Never Our Friend...* provides comfort and a lesson plan from a man who has been there and prevailed.

Gary Richardson is an inspiration to families, churches, communities, and yes, our great nation. In this book he focuses on the destructive power of fear. It has been well said, "We need fear only fear itself." Fear will always paralyze our emotions and ability to think clearly. This book will help you learn about what causes this enemy to prevail, and how we can overcome it. I believe Gary Richardson provides needed answers and will help inspire readers to achieve their God-given goals and dreams.

If God hasn't given us a spirit of fear, why would we want it? Love, power and a sound mind sound a lot better, don't they? I shed tears of recognition and gratitude reading Gary's book. I recommend it to all. God bless you!

This book...should be required reading for everyone, especially students and young adults. I couldn't put it down once I started reading, and can't wait to share it with friends and relatives.

As a songwriter I'm always impressed when a whole lot is said in as few words as possible. Gary has mastered this art of communicating on the potent topic of fear. From a classic line like "Fear is the beginning of success" to the simplicity of "God In/Fear Out." YOU must read this book.

As a member of the media, I have closely watched the career of Gary Richardson....As long as there are wrongs to right, and battles to win, we'll see Gary Richardson in there fighting. The greater the challenge, the more he seems to like it.
